[dhave.dev13@gmail.com](mailto:dhave.dev13@gmail.com) 

CAGAYAN DE ORO CITY, PHILIPPINES 

(+63) 945 398 5423 

Flutter Developer with 4+ years of experience building production-grade mobile applications using Flutter and BLoC architecture. Previously worked as an IT Senior Officer and SAP Business One Administrator, bringing strong experience in enterprise systems, backend integrations, and secure infrastructure. Skilled in REST API integrations, Firebase services, and scalable mobile architecture. Passionate about building reliable mobile solutions and collaborating with cross-functional teams.

## WORK EXPERIENCE

### IT Freelance – Project Based

Mackun Marketing Company Inc.

06/2025 – 04/2026 | Cagayan de Oro (Remote)

Key Contributions:

- Developed **SAP Business One integrations** using **SAP B1 SDK** and **Service Layer**, enabling web applications to interact with ERP data.
- Built **web-based ERP extensions** using **Vue.js**, **TypeScript**, and **ASP.NET** backend to support internal business workflows.
- Provided **IT consulting for infrastructure and ERP implementation**, advising on system architecture, deployment, and integration strategies.
- Assisted with **system optimization and technical troubleshooting** for existing ERP and IT infrastructure.

### Mobile Developer

Web Fuel Agency

01/2024 – 12/2025 | Gibraltar (Remote)

Key Contributions:

- Developed **Flutter-based mobile applications**, including an **E-learning platform** and a **social event management app**.
- Designed scalable application architecture using **Clean Architecture** and **BLoC state management**.
- Implemented **KYC verification workflows** using **Veriff** for identity validation.
- Integrated **social authentication** and user onboarding features.
- Implemented **Firebase services** including **Cloud Messaging (FCM)** and **Analytics** for notifications and user insights.

### Software Engineer – Flutter (Senior Associate)

Peddler Philippines, Inc.

05/2022 – 7/2024 | Catbalogan City Philippines (Remote)

Key Contributions:

- Contributed to the development of **Peddler POS mobile application**, used by small and micro businesses to record sales and expenses.
- Implemented authentication and user management using **AWS Amplify**.
- Designed scalable application modules using **Clean Architecture** and **BLoC state management**.
- Developed and maintained **billing and payment-related features** within the mobile platform.

### IT Senior Officer

Mackun Marketing Company Inc.

07/2016 – 4/2022 | Cagayan de Oro, Philippines

Key Contributions:

- Administered **SAP Business One ERP system**, including user management, system configuration, and database maintenance.
- Managed **MSSQL Server** and **virtualized environments**, ensuring stability of business-critical systems.
- Implemented **network security policies** using **firewall configuration** and **VLAN segmentation** to secure internal infrastructure.
- Developed **internal web applications** using **PHP**, **JavaScript**, **TypeScript**, and **ASP.NET** to support company operations.
- Maintained company IT infrastructure and monitored **system vulnerabilities and security risks**.
